Every two weeks the students phone in their decisions to a college headquarters for computer scoring. As of "press" time, Augusta College was leading, according to DR. DON LAW, who's coordinating the effort. Participants include CLAUDIA GENITON, JACK CARWILE, and STACY RUFO, under the guidance of DR. LAW and F. WILLIAM

WELCOME BACK, BARBARA SPEERSTRA AND KATHY THOMPSON!

It's great to see DR. BARBARA T. SPEERSTRA is back again following a critical illness which hospitalized her in Dallas for more than a month. Ignoring a case of bronchitis to spend Christmas with her children for the first time since 1982, she left for Dallas to stay with her daughter, Madeline. Her illness worsened. She was diagnosed as having pneumonia, and later developed complications which led to the collapse of one lung. After surgery which left "railroad tracks" on her side and back, she recuperated in the hospital and then at her daughter's home. She returned to the AC Counseling Center on a part-time basis in early March and is now working full-time. Though she says it will be quite a while before she is jogging, she is on an ambitious walking program to regain her strength and stamina. She expressed her appreciation for "all the nice notes and letters" she received.

KATHY THOMPSON was also diagnosed as having pneumonia, after having the flu, but luckily she did not have to be hospitalized. Kathy's three-week absence from work was brightened by many people at AC who sent her "cards, fruit, and even soup!" After one week of part-time work, she is now back full-time and wishes to thank everyone for the kindness and concern she received.
